Portfolio

Summary

Senior Software Engineer with over 6 years of experience building scalable, high-performance web applications and Web3 solutions. Expert in the JavaScript ecosystem (React, Next.js, Node.js) and full-stack architecture including SQL and MongoDB databases. Proven track record of transforming complex data requirements into seamless user experiences for Enterprise and Decentralized sectors. Skilled in performance optimization, API integration, and collaborating with cross-functional international teams to deliver robust digital products.

Experience

Lid United Arab Emirates
Web3 Developer 09/ 2023 - 10/2025

- Responsible for transforming on-chain platform into seamless web2 experience with full web3 benefits.
- Enabled users to sell digital files, manage communities and analyze metrics in real time without complications.
- Built responsive React interfaces with MetaMask integration reducing user friction by 40%.
- Implemented component driven using React, NextJS, TailwindCSS, improving code reusability by 60%.

Sanfer Labs México & Latam
Senior Full Stack Developer. 07/ 2022 -07/ 2023

- Lead for the Innovation Division, architecting and deploying 10+ scalable applications for the Sanfer ecosystem.
- Optimized performance achieving 95+ Lighthouse scores on production applications.
- Mentored junior developers on frontend best practices and code quality standards.
- Websites and applications for various companies and divisions with Sanfer Labs Group.

Independent Senior Engineer Remote | Europe & US Clients
Senior Full Stack Developer 01/ 2018 - 05/ 2022

- Architected high-performance ecosystems for Martin Garrix & STMPD RCRDS, ensuring <1s load times during massive traffic spikes via AWS & CDN optimization.
- Achieved 100/100 Core Web Vitals scores across production sites by implementing Next.js Server-Side Rendering (SSR) and advanced caching
- Partnered with Twice Media House to build immersive, motion-heavy digital experiences (using GSAP/WebGL) for tier-1 clients including Nike and Oysho.
- Managed end-to-end product lifecycles, translating creative concepts into scalable architectures using React, Node.js, and Cloud Infrastructure.

Education

Monterrey Institute of Technology and Higher Education México
Degree In Software and Network Engineering 08/ 2018 - 01/ 2022

Languages

English (Full Professional), **Spanish** (Native), **Portuguese** (Advanced), **Norwegian** (Conversational)

Skills

React.js, Next.js, JavaScript (ES6+), TypeScript, TailwindCSS, Web Accessibility (WCAG), Figma. **Backend:** Node.js, Express.js, PHP, Laravel, RESTful APIs, AWS (S3/CloudFront). **Databases:** MongoDB, PostgreSQL, Database Architecture & Optimization. **Web3:** MetaMask Integration, Solidity, Web3.js, Ethers.js, dApp Architecture. **Tools & DevOps:** Git, Vercel, Netlify, Linux, Azure, Docker. Core Competencies: Cross-cultural Leadership, Scalable Architecture, Performance Optimization (Core Web Vitals).
